Education

•Bachelor's Degree in Computer Engineering *2018 – 2025*

Federal University of Grande Dourados (UFGD), Brazil GPA (Brazil): 4.92

- Emphasis on software development, embedded systems and computer networks.
- Development of academic and personal projects applying engineering principles and full stack web solutions.
- Research published at TISE 2023 — UFFA: Financial education PWA.

•Technical Degree in Information Technology *2015 – 2017*

São Paulo State Technical School (ETEC), Brazil Grade (Brazil): B (7)

- Full development of websites and web applications (front-end and back-end), databases, web design, network infrastructure and security.
- Initial experience with software development using HTML5, CSS3, JavaScript, PHP and Java.
- Composition, design and animation using Adobe Suite CC.

Professional Experience

•Mid Fullstack Web Developer *Mar 2026 – Present*

TRACTIAN São Paulo, Brazil • Remote

- Develop and maintain core web properties including tractian.com, Academy, Events, and Careers pages
- Implement A/B tests and CRO experiments via PostHog, tracking results and communicating insights to stakeholders
- Build analytics dashboards and monitor the full lead-to-deal pipeline using PostHog, HubSpot, and GA4
- Manage content delivery across Ghost, Strapi, Builder.io, and Airtable
- Serve as CRO/Fullstack technical reference for troubleshooting, configurations, and platform improvements
- Collaborate cross-functionally with Creative, Content, Paid Media, and Product Enablement teams
- Drive workflow optimization through AI tooling and scalable architecture patterns with OpenTelemetry observability

•Mid Fullstack Developer *Feb 2025 – Mar 2026*

NineTwo Performance Curitiba, Brazil • On-site

- End-to-end technical leadership for a digital performance agency, from architecture, observability and martech connections (Google Analytics, Google Ads, Meta Ads, Tag Manager) to production deployment.
- Complete migration from WordPress to Next.js/TypeScript, building development infrastructure from scratch (GitHub org, Vercel, CI/CD, Azure).
- Delivered more than 29 projects: SaaS platforms, institutional websites and web systems.
- Development of interactive dashboards integrated with Google Analytics and Meta Business for data-driven decision-making.
- Acted as a solo developer across multiple projects, handling the entire lifecycle from concept to deployment.

• Fullstack Developer *Jun 2025 – Mar 2026*

Pesados Web - Outsourced Contract Curitiba, Brazil • On-site

- End-to-end technical leadership with full autonomy over the project, from architecture, planning and execution to testing and production deployment.
- Complete migration from WordPress stack to Next.js/TypeScript, building the entire development infrastructure from scratch (Git Actions, CI/CD, Azure ACR).
- Full rebuild of a heavy vehicles marketplace from WordPress (Hostinger) to a modern stack using Next.js, TypeScript, PostgreSQL and Sanity CMS. Built everything from scratch: database modeling, payment integrations, admin dashboard and automation scripts.

• Webmaster *Aug 2022 – Jan 2025*

Donatti Turismo Campo Grande, Brazil • Remote

- Responsible for digital content creation and online presence optimization focused on conversion and engagement using Adobe Photoshop and Illustrator.

- Developed landing pages with automation via Google Sheets API, simplifying content workflows.
- Managed integrated campaigns on Meta Business and multiple channels (Instagram, WhatsApp, Google Business and Facebook).
- Planned digital marketing strategies aligned with the company's business objectives.

• Graphic Designer *Mar 2024 – Jul 2024*

Inspirare Mídia Dourados, Brazil • On-site

- Creation of visual content for social media and digital marketing campaigns.
- Development of assets for paid traffic and engagement campaigns.
- Production of offline materials for World BT Rio Brilhante 2024 under outsourced contract.

Internships and Volunteer Work

• Clinical Engineering Intern *Feb 2022 – Nov 2022*

Cerdil – Radiology and Diagnostic Imaging Center Dourados, Brazil • On-site

- Technical support in the maintenance of medical equipment such as MRI, CT and X-ray systems, ensuring continuous availability.
- Worked with PACS systems (Philips, Siemens, GE), optimizing medical image management.
- Collaborated with GE engineers in preventive and corrective maintenance of critical equipment.

• Marketing and Design Manager *Sep 2019 – Feb 2022*

Include ME – Junior Enterprise (UFGD) Dourados, Brazil • On-site

- Led marketing and design teams focused on strengthening brand presence and acquiring new clients.
- Created visual identities and prospecting campaigns for various sectors.
- Implemented Google Workspace for the entire team, improving cloud collaboration.
- Applied agile methodologies (Kanban and Scrum) to organize internal project workflows.

• IT Support Intern *Jul 2018 – Dec 2018*

Federal University of Grande Dourados – COIN Dourados, Brazil • On-site

- Supported academic systems and IT infrastructure ensuring continuous service operation.
- Managed users in Active Directory with focus on security and access control.
- Performed preventive maintenance on IT equipment to minimize downtime.

Technical Skills and Interests

Languages: JavaScript, TypeScript, Python, HTML/CSS, Java 8+, C/C++.
Frameworks and Libraries: React.js, Next.js, Redux, Spring Boot, Angular.
Development Tools: Node.js, Vite, Docker, VSCode, Git, GitHub.
CMS and Back-end: Sanity, Ghost, Builder.io, Payload CMS, Firebase, PostgreSQL, MongoDB.
Cloud and DevOps: Vercel, Netlify, Cloudflare, Azure, CI/CD.
Analytics and Marketing: Google Analytics, Google Ads, GTM, Meta Business, PostHog, Twenty, Salesforce, RD Station and Hubspot.
Design and Editing: Figma, Photoshop, Illustrator, InDesign, After Effects, Premiere, Audition, Canva and Capcut.
Relevant Coursework: Data Structures and Algorithms, Operating Systems, Object-Oriented Programming, Databases, Software Engineering, Computer Vision Topics, Probability and Statistics and Artificial Intelligence.
Areas of Interest: Full Stack Web Development, Back-end, DevOps, UI/UX Design.
Soft Skills: Problem Solving, Continuous Learning, Communication, Teamwork, Upper-Intermediate English (B2).

Achievements

- **International Conference on Informatics in Education (TISE 2023)** *2023*
- **National Institute of Industrial Property (INPI)** *2024*

Certifications

- EF SET English Certificate 58/100 (Upper-Intermediate B2) *2025*
- Oracle Next Education F2 T6 Backend Program *2024*
- Personal Development Training T6 - ONE *2024*
- Java and Object-Oriented Programming T6 - ONE *2024*
- Java Web: Building Applications with Spring Boot *2024*
- Java and Spring Framework T6 - ONE *2024*
