PROFESSIONAL SUMMARY

Full Stack Software Engineer with a Computer Engineering degree and 6+ years of professional experience building production-grade web applications, SaaS platforms, and analytics dashboards. Specialized in TypeScript, Next.js, Node.js, React, and PostgreSQL, with hands-on expertise in cloud infrastructure (Vercel, Azure, Cloudflare), CI/CD pipelines, and AI integration (Azure OpenAI, n8n). Proven track record delivering 50+ projects across SaaS, marketing analytics, and content platforms. Fluent in English (C1) and native Portuguese speaker. Open to international remote and relocation opportunities.

EDUCATION

•Bachelor of Science in Computer Engineering

Federal University of Grande Dourados (UFGD), Brazil

2018 – 2025

GPA: 4.92 / 5.00

- Coursework focused on software engineering, distributed systems, embedded systems, and computer networks.
- Published research at TISE 2023 (International Conference on Informatics in Education): UFFA, a Progressive Web App for financial education.
- Filed and registered patent with INPI (Brazilian Patent Office), 2024.

PROFESSIONAL EXPERIENCE

•Founder & Lead Developer

MSYNC (moitinho.dev) – Independent Practice

2018 – Present

Brazil · Remote

- Operate an independent software and design practice serving 50+ international and domestic clients across SaaS, marketing analytics, content platforms, and institutional websites.
- Architect and ship full stack applications using Next.js 14/15, TypeScript, React, Node.js, Sanity CMS, Drizzle ORM, PostgreSQL, and Vercel.
- Deliver AI-powered automation pipelines integrating Azure OpenAI (GPT-4o, Whisper, Vision) with n8n workflows and PostgreSQL/Redis backends.
- Implement Google Tag Manager containers with Consent Mode v2 and full LGPD/GDPR-compliant tracking architecture across client web properties.
- Lead end-to-end product cycles: discovery, technical proposals, system design, implementation, deployment, and post-launch support.

•Mid Full Stack Engineer

TRACTIAN (Series B Industrial AI / IoT)

Feb 2026 – May 2026

São Paulo, Brazil · Remote

- Owned core public web properties on the Growth team: traction.com, Tractian Academy, Events, and Careers, serving global B2B traffic.
- Designed and shipped a careers analytics dashboard in PostHog using HogQL, pivot columns, and conditional formatting for the HR audience.
- Built and ran A/B tests and CRO experiments with PostHog, communicating insights and recommendations to Growth and Product stakeholders.
- Maintained the lead-to-deal analytics pipeline integrating PostHog, HubSpot, and GA4, ensuring consistent attribution across funnels.
- Managed multi-source content delivery across Ghost, Strapi, Builder.io, and Airtable, standardizing publishing workflows.
- Acted as the team's CRO and full stack reference for troubleshooting, configuration, and platform improvements, with OpenTelemetry-based observability.

•Tech Lead, Full Stack Engineering

NineTwo Performance (Catalisti Holding)

Feb 2025 – Mar 2026

Curitiba, Brazil · Hybrid

- Led end-to-end technical delivery for a digital performance agency, owning architecture, observability, and martech integrations (Google Analytics, Google Ads, Meta Ads, GTM).
- Migrated the agency's full client portfolio from WordPress to Next.js / TypeScript, building development infrastructure from scratch (GitHub organization, Vercel, CI/CD on Azure).
- Delivered 29+ production projects: B2B SaaS platforms, multi-tenant marketing dashboards, institutional websites, and internal web systems.
- Built interactive analytics dashboards integrated with Google Analytics 4 and Meta Business APIs, enabling data-driven decisions for clients managing six-figure ad budgets.
- Operated as the sole technical owner across multiple concurrent client engagements, from discovery through deployment.

- Webmaster & Digital Producer

Donatti Turismo

– Owned the company’s full digital presence, including web development, content production, and conversion-focused campaign assets.

– Developed landing pages with Google Sheets API automation, streamlining content workflows and reducing manual publishing effort.

– Managed integrated campaigns across Meta Business, Instagram, WhatsApp, Google Business, and Facebook.

– Defined digital marketing strategy aligned with the company’s commercial objectives and seasonal travel cycles.

Aug 2022 – Jan 2025

Campo Grande, Brazil · Remote

EARLIER EXPERIENCE

- Clinical Engineering Intern

Cerdil – Radiology and Diagnostic Imaging Center

– Provided technical support for medical imaging equipment (MRI, CT, X-ray), ensuring uptime and operational continuity.

– Worked with PACS systems (Philips, Siemens, GE) and collaborated with GE engineers on preventive and corrective maintenance.

Feb 2022 – Nov 2022

Dourados, Brazil · On-site
- Marketing and Design Manager

Include ME – Junior Enterprise (UFGD)

– Led marketing and design teams to strengthen brand presence and drive client acquisition.

– Implemented Google Workspace across the organization and applied agile methodologies (Kanban, Scrum) to internal workflows.

Sep 2019 – Feb 2022

Dourados, Brazil · On-site

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java, HTML, CSS, SQL.
Frontend: React, Next.js (14 / 15), Vue, Redux, Tailwind CSS, shadcn/ui.
Backend: Node.js, NestJS, Elysia, Bun, Spring Boot, REST, GraphQL.
Databases & ORMs: PostgreSQL, MongoDB, Redis, Drizzle ORM, Firebase.
Cloud & DevOps: Vercel, Azure, Cloudflare, Netlify, Docker, Kubernetes, GitHub Actions, CI/CD.
CMS & Headless: Sanity CMS, Ghost, Strapi, Builder.io, Payload CMS.
AI & Automation: Azure OpenAI (GPT-4o, Whisper, Vision), n8n, OpenTelemetry.
Analytics & Martech: Google Analytics 4, Google Tag Manager, Google Ads, Meta Business, PostHog (HogQL), HubSpot, Salesforce.
Tooling: Git, GitHub, Biome, ESLint, Vite, Turborepo, Figma, Adobe Creative Suite.
Methodologies: Agile (Scrum, Kanban), TDD, Code Review, Observability, A/B Testing, CRO.
