PROFESSIONAL SUMMARY

Full stack engineer with 6+ years building production-grade web platforms and AI-powered applications. Expert in TypeScript, React, Next.js, Node.js, and PostgreSQL, shipping SaaS products, analytics systems, and content platforms end-to-end. Strong focus on AI-first development: integrating LLMs (Azure OpenAI, Claude) and automation (n8n) into user-facing products, shipping rapidly with Claude Code, Cursor, v0, and Lovable. 50+ projects delivered for clients in Brazil, the US, and Europe, working 100% remote across distributed teams. Hybrid background in marketing technology (HubSpot, GA4, GTM) and 10+ years of senior graphic design (credits include Spinnin Records and Groovy Society) brings product thinking together with engineering and creative execution. English C2 Proficient and native Portuguese.

PROFESSIONAL EXPERIENCE

•Founder & Lead Developer (Independent Agency)

2018 – Present

MSYNC (moitinho.dev)

Brazil · 100% Remote

- Operate an independent software, design, and marketing-tech practice serving 50+ clients across Brazil, the US, and Europe, in solo engagements and through agency partnerships with M2Z Creative and Catalisti Holding.
- Ship rapidly with AI-assisted development: Claude Code, Cursor, v0, Lovable, and Replit. Authored a personal Claude Code skill set covering Next.js + Sanity, Vercel deploys, n8n + Evolution API + Azure OpenAI architectures, and GTM/LGPD consent patterns.
- Build production apps with Next.js 14/15, TypeScript, React, Node.js, Sanity CMS, Drizzle, PostgreSQL, and Vercel; integrate AI features via Azure OpenAI (GPT-4o, Whisper, Vision) and Claude with n8n, Redis, and anti-loop protection.
- Recent shipping highlights (last 12 months): a multi-tenant SaaS aggregating Meta Ads, Google Ads, and GA4 for marketing agencies (Bun, Elysia, Next.js, Drizzle, Clerk); an institutional port-terminal site with an interactive `react-globe.gl` globe; a Next.js + Sanity portfolio/proposal platform with private client routes; an Azure OpenAI WhatsApp chatbot with Redis memory.
- Implement marketing-tech stacks for client web: HubSpot CMS + Marketing Hub, GA4, GTM with Consent Mode v2, Meta Business, RD Station, and LGPD/GDPR-compliant tracking.

•Mid Full Stack Engineer, Growth Team

Feb 2026 – May 2026

TRACTIAN (*Series B Industrial AI / IoT*)

São Paulo, Brazil · 100% Remote

- Owned core public web properties on the Growth team: traction.com, Tractian Academy, Events, and Careers, serving global B2B traffic.
- Designed and shipped a careers analytics dashboard in PostHog using HogQL, pivot columns, and conditional formatting for the HR audience.
- Built A/B tests and CRO experiments with PostHog; maintained the lead-to-deal analytics pipeline integrating PostHog, HubSpot, and GA4; managed multi-source content delivery across Ghost, Strapi, Builder.io, and Airtable.
- Accelerated delivery using Cursor and Claude Code for refactors, feature scaffolding, and OpenTelemetry-based observability instrumentation.

•Tech Lead, Full Stack Engineering (Performance Agency)

Feb 2025 – Mar 2026

NineTwo Performance (*Catalisti Holding*)

Curitiba, Brazil · 100% Remote

- Led end-to-end technical delivery for a digital performance agency managing 25+ client accounts, owning architecture, observability, and martech integrations across GA4, Google Ads, Meta Ads, GTM, HubSpot, and RD Station.
- Early Claude Code adopter (used since its 2025 launch); shipped every client project with AI-assisted development combining Claude Code, Cursor, and v0 across the agency's stack.
- Migrated the agency's full client portfolio from WordPress to Next.js / TypeScript, building development infrastructure from scratch (GitHub org, Vercel, CI/CD on Azure); delivered 29+ production projects for US, EU, and LATAM clients (B2B SaaS, multi-tenant marketing dashboards, e-commerce, institutional sites).
- Built interactive analytics dashboards integrated with GA4 and Meta Business APIs for clients managing six-figure ad budgets; operated as sole technical owner across concurrent engagements with distributed teams.

•Webmaster & Digital Producer

Aug 2022 – Jan 2025

Donatti Turismo

Campo Grande, Brazil · Remote

- Owned the company's full digital presence: web development, conversion-focused landing pages with Google Sheets API automation, and content production.
- Managed integrated campaigns across Meta Business, Instagram, WhatsApp, Google Business, and Facebook; defined digital marketing strategy aligned with seasonal travel cycles.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java, SQL, HTML, CSS.
Frontend & Backend: React, Next.js (14 / 15), Vue, Tailwind, shadcn/ui, Redux; Node.js, NestJS, Elysia, Bun, Spring Boot, REST, GraphQL.
Data & Cloud: PostgreSQL, MongoDB, Redis, Drizzle ORM; Vercel, Azure, Cloudflare, Docker, Kubernetes, GitHub Actions, CI/CD.
AI Stack: Claude Code, Cursor, v0, Lovable, Replit, GitHub Copilot; Azure OpenAI (GPT-4o, Whisper, Vision), Claude API, n8n, OpenTelemetry, RAG, prompt engineering.
Marketing & CMS: HubSpot (CMS + Marketing Hub), GA4, GTM (Consent Mode v2), Google Ads, Meta Business, PostHog (HogQL), RD Station, Salesforce; Sanity, Ghost, Strapi, Builder.io, Payload.
Design & Creative: Figma, Adobe Photoshop, Illustrator, InDesign, After Effects, Premiere; brand identity, EPKs, motion graphics.
Methodologies: Agile (Scrum, Kanban), TDD, Code Review, Observability, A/B Testing, CRO, LGPD/GDPR compliance.

ACHIEVEMENTS

- Patent registered with INPI (Brazilian Patent Office) 2024
- Research published at TISE 2023 – International Conference on Informatics in Education 2023
- Design & EPK credits for Spinnin Records, Groovy Society, and Silver Panda 2018 – Present

CERTIFICATIONS

- EF SET English Certificate – C2 Proficient 2026
- Oracle Next Education F2 T6 – Backend Program 2024
- Java Web – Building Applications with Spring Boot 2024
- Java and Spring Framework T6 – ONE 2024
- Java and Object-Oriented Programming T6 – ONE 2024

EDUCATION

- Bachelor of Science in Computer Engineering 2018 – 2025
Federal University of Grande Dourados (UFGD), Brazil GPA: 4.92 / 5.00
 - Coursework focused on software engineering, distributed systems, embedded systems, and computer networks.
 - Published research at TISE 2023: UFFA, a Progressive Web App for financial education.
 - Filed and registered patent with INPI (Brazilian Patent Office), 2024.
