PROFESSIONAL SUMMARY

Full stack developer with 6+ years building production web platforms and AI-powered applications. Specialist in TypeScript, React, Next.js, Node.js, and PostgreSQL, delivering SaaS products, analytics systems, and content platforms end to end. Focused on AI-first development: integrating LLMs (Azure OpenAI, Claude) and automation (n8n) into user-facing products, shipping fast with Claude Code, Cursor, v0, and Lovable. 50+ projects delivered for clients across Brazil, the US, and Europe, working 100% remotely on distributed teams. A hybrid background in marketing technology (HubSpot, GA4, GTM) and 10+ years of senior graphic design (with credits for Spinnin Records and Groovy Society) pairs product thinking with technical and creative execution. C2 Proficient English and native Portuguese.

PROFESSIONAL EXPERIENCE

•Founder & Lead Developer (Independent Practice)

2018 – Present

MSYNC (*moitinho.dev*)

Brazil · 100% Remote

- Run an independent software development, design, and marketing technology practice serving 50+ clients across Brazil, the US, and Europe, in both solo projects and agency partnerships with M2Z Creative and Catalisti Holding.
- Ship fast with AI-assisted development: Claude Code, Cursor, v0, Lovable, and Replit. Author of a personal set of Claude Code skills covering Next.js + Sanity, Vercel deploys, n8n + Evolution API + Azure OpenAI architectures, and GTM/LGPD consent patterns.
- Build production applications with Next.js 14/15, TypeScript, React, Node.js, Sanity CMS, Drizzle, PostgreSQL, and Vercel; integrate AI features via Azure OpenAI (GPT-4o, Whisper, Vision) and Claude with n8n, Redis, and anti-loop layers.
- Key deliveries in the last 12 months: multi-tenant SaaS aggregating Meta Ads, Google Ads, and GA4 for marketing agencies (Bun, Elysia, Next.js, Drizzle, Clerk, Cube.dev, Fivetran, Stripe); port terminal corporate site with an interactive react-globe.gl globe; Next.js + Sanity portfolio/proposal platform with per-client private routes; Azure OpenAI WhatsApp chatbot with Redis memory.
- Implement marketing technology stacks across client web properties: HubSpot CMS + Marketing Hub, GA4, GTM with Consent Mode v2, Meta Business, RD Station, and LGPD/GDPR-compliant tracking.

•Mid Full Stack Developer, Growth Team

Feb 2026 – May 2026

TRACTIAN (*Industrial AI / IoT, Series B*)

São Paulo, Brazil · 100% Remote

- Owned the main public web properties on the Growth team: tractian.com, Tractian Academy, Events, and Careers, serving global B2B traffic.
- Designed and delivered a careers analytics dashboard in PostHog using HogQL, pivot columns, and conditional formatting for the HR audience.
- Built A/B tests and CRO experiments with PostHog; maintained the lead-to-deal analytics pipeline integrating PostHog, HubSpot, and GA4; managed multi-source content delivery across Ghost, Strapi, Builder.io, and Airtable.
- Accelerated delivery using Cursor and Claude Code for refactors, feature scaffolding, and OpenTelemetry-based observability instrumentation.

•Tech Lead, Full Stack Engineering (Performance Agency)

Jan 2025 – Feb 2026

NineTwo Performance (*Catalisti Holding*)

Curitiba, Brazil · 100% Remote

- End-to-end technical leadership for a digital performance agency with 25+ client accounts, owning architecture, observability, and martech integrations (GA4, Google Ads, Meta Ads, GTM, HubSpot, and RD Station).
- Early adopter of Claude Code (in use since its 2025 launch); delivered all client projects with AI-assisted development combining Claude Code, Cursor, and v0 across the agency stack.
- Migrated the agency's entire client portfolio from WordPress to Next.js / TypeScript, building the development infrastructure from scratch (GitHub organization, Vercel, CI/CD on Azure); delivered 29+ production projects for clients in the US, Europe, and LATAM (B2B SaaS, multi-tenant marketing dashboards, e-commerce, corporate sites).
- Architected content infrastructure with a wide range of headless and traditional CMS platforms: Sanity CMS across 20+ projects, plus Strapi, Ghost, Payload CMS, Builder.io, and Tina CMS depending on each project's editorial and modeling needs.
- Built interactive dashboards integrated with GA4 and Meta Business APIs for clients with six-figure ad spend; acted as sole technical owner across concurrent projects with distributed teams.

•Webmaster & Digital Producer

Aug 2022 – Jan 2025

DONATTI Turismo

Campo Grande, Brazil · Remote

- Owned the company's full digital presence: web development, landing pages with Google Sheets API automation, and conversion-focused content production.
- Managed integrated campaigns across Meta Business, Instagram, WhatsApp, Google Business, and Facebook; defined the digital marketing strategy aligned with tourism market seasonality.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java, SQL, HTML, CSS.

Frontend: React, Next.js (App Router, Server Components, Server Actions), Vue, TailwindCSS with custom design systems (CSS custom property tokens, CI token gating), shadcn/ui, Redux, TanStack Query, TanStack Table, Recharts, next-intl (real pt-BR/en/es i18n).

Backend & API: Node.js, NestJS, Elysia (boundary architecture: public OAuth/webhook routes vs authenticated /v1), Bun monorepos (workspaces, Eden Treaty for end-to-end type safety), Spring Boot, REST, GraphQL.

Data & Cloud: PostgreSQL, MongoDB, Redis, Drizzle ORM (schema design, migrations, org/workspace multi-tenancy); Azure (Container Apps, Container Apps Jobs, Bicep IaC, Key Vault, Postgres Flex), Vercel, Cloudflare (R2, custom image loader), Docker, Kubernetes, Azure DevOps Pipelines, GitHub Actions, CI/CD.

Integrations: end-to-end custom OAuth for Meta Ads, Google Ads, GA4 (signed state, encrypted token storage); Fivetran ELT (idempotent provisioning, sync orchestration); Cube.dev semantic layer; Clerk (SDK-level auth/orgs); Stripe + AbacatePay/PIX billing; DevCycle/OpenFeature per-org feature flags.

AI Stack: Claude Code, Cursor, v0, Lovable, Replit, GitHub Copilot; Azure OpenAI (GPT-4o, Whisper, Vision), Claude API, n8n, OpenTelemetry, RAG, prompt engineering.

CMS: Sanity, Strapi, Ghost, Payload, Builder.io, Tina CMS, HubSpot CMS.

Marketing & Analytics: HubSpot (CMS + Marketing Hub), GA4, GTM (Consent Mode v2), Google Ads, Meta Business, PostHog (HogQL), RD Station, Salesforce.

Design & Creative: Figma, Adobe Photoshop, Illustrator, InDesign, After Effects, Premiere; brand identity, EPKs, motion graphics.

Engineering Practices: multi-tenancy & data isolation, applied security (token encryption, webhook signature verification, signed OAuth state), LGPD/GDPR compliance, clean architecture (feature code to abstractions to vendors), measurable code quality (CodeScene, disciplined refactoring), mandatory code review, Agile (Scrum, Kanban), TDD, A/B testing, CRO.

ACHIEVEMENTS

•Patent registered with INPI (Brazilian National Institute of Industrial Property)	2024
•Research published at TISE 2023 – International Conference on Informatics in Education	2023
•Design and EPK credits for Spinnin Records, Groovy Society, and Silver Panda	2018 – Present

CERTIFICATIONS

•Building with the Claude API – Anthropic	2026
•Claude Code in Action – Anthropic	2026
•Claude Code 101 – Anthropic	2026
•AI Fluency: Framework & Foundations – Anthropic	2026
•Introduction to Claude Cowork – Anthropic	2026
•EF SET English Certificate – C2 Proficient	2026
•Oracle Next Education F2 T6 – Backend Program	2024
•Java Web – Building Applications with Spring Boot	2024
•Java and Spring Framework T6 – ONE	2024
•Java and Object-Oriented Programming T6 – ONE	2024

EDUCATION

•Bachelor’s in Computer Engineering	2018 – 2025
Federal University of Grande Dourados (UFGD), Brazil	GPA: 4.92 / 5.00
– Emphasis on software engineering, distributed systems, embedded systems, and computer networks.	
– Research published at TISE 2023: UFFA, a Progressive Web App for financial education.	
– Patent registered with INPI (Brazilian National Institute of Industrial Property), 2024.
